An organization of the Polk township division of the American Red Cross society and plans for an extensive "drive" for funds were taken up at the meeting of the Red Cross boosters held at the Commercial club rooms last night.

Dr. F. R. Anthony, temporary chairman, and Fred P. Robinson, temporary secretary of the Red Cross chapter for Nodaway county, were elected to the same offices in the Polk township organization and power was given them by the members present to appoint an executive committee and to make any plans they felt necessary to carry on the campaign for funds in the township.

Only two more days of voluntary subscription are left as the solicitation of funds will begin Monday. It is planned to make a "whirlwind drive" taking only two or three days to accomplish the whole canvass. The township will be canvassed according to school districts. Doctor Anthony announced that he had many volunteers, who were anxious to take up the work, and that any others wishing to assist in the campaign would be considered when the selection of campaigners was made.

Another misunderstanding concerning the organization was unearthed yesterday by Conrad Yehle. A woman came into the Alderman-Yehle store with two dollars for that organization and she said she had \$1 to give to Dr. Anthony's organization. Remember, that there is only one organization in the county and this is the Nodaway County chapter of the American Red Cross association. And that all of the money collected in any part of the county goes for the same purpose—the carrying on of the Red Cross work in Europe and America.

Mrs. Frank Tarpley was the Sunday dinner guest of Mr. and Mrs. B. F. Tarpley, west of Maryville.

FOR THE CANNING LESSONS

Special Demonstrator From University of Missouri Will Be At

Prof. C. H. Belting, of the Department of Agriculture at the State Normal school, received word today that a representative of the Extension Department of the University of Missouri would be at the State Normal school at 2 o'clock Saturday afternoon in the Home Economics rooms for the purpose of giving Maryville women a few practical demonstrations on canning and preserving foods.

Fruits and vegetables will be provided for the demonstration, but those who wish to have some foods canned out at the Normal may do so.

An invitation to city and farm women to assist in the demonstrations is extended by Professor Belting and Miss Hettie Anthony, head of the Home Economics department of the Normal.

READY FOR DRAFT INCREASE THE FEE

LOCAL EXEMPTION BOARD GETS
NOTICE OF APPOINTMENT.

HOLD A MEETING TODAY

Sheriff Dowden Elected Chairman and
Fred Yeomans Clerk of Board—
Begin Work Tomorrow.

Sheriff John Dowden, County Clerk Fred Yeomans and County Physician Frank C. Wallis received word this morning of their appointment on the Exemption board for this county. Printed instructions to the board, conforming to the selective draft law recently enacted by Congress, were inclosed with the notices of appointment. The instructions say the board is to pass on questions of exemption, and all questions of claims for including or discharging individuals or classes of individuals from the selective draft.

The board met this morning and organized by electing Sheriff Dowden as chairman and Mr. Yeomans as clerk. Each member subscribed to the oath that he will support the constitution of the United States "against all enemies, foreign and domestic."

The board will meet again tomorrow and will proceed to examine and classify the registration cards, exempt such registered persons as are entitled to exemption, and within four days after organization, report to the adjutant-general at Jefferson City.

The board notified Governor Gardner by wire of their organization this morning.

So far as instructions thus far received indicate, the board will be allowed wide latitude in the matter of designating who shall be entitled to exemptions. No specific instructions on this point have been received, though they may come after the organization of the board.

A board in each federal district will be selected and they shall review on appeal and either affirm, modify or reverse any decision of any local board.

There will be few legitimate excuses for exemption according to unofficial advice from Washington. The main grounds on which registered men will be exempted from the draft follow:

1. Physical incapacity. Cripples, if drafted, will have to appear before a medical examiner before excused. In the first 625,000 conscripts these ailments will disqualify: heart disease, flat feet, eye disease or derangements that cannot be cured by glasses, tuberculosis and any other chest disease, cancer, serious kidney or liver troubles, varicose veins, infectious blood diseases.

2. Employment in vital war industries, including ship building, munitions making, navy yards, oil fields, coal mines, or in factories where army supplies are made.

3. Persons of religious beliefs opposed to the war who have been a member of the faith in question before March 15, 1917.

4. Men, the sole support of families.

These take in virtually every ground for exemption.

WOULD LIST SEED WHEAT

Extension Department Representative
and Prof. C. H. Belting Will In-
spect Fields of Winter Wheat.

An effort to file information concerning all of the seed wheat of the state is being made by the University of Missouri Extension department. Prof. C. H. Belting of the Department of Agriculture of the State Normal, wishes to urge the secretaries of all of the Nodaway county farm clubs to send in to him at once the lists of all of the farmers in their vicinity who have the best seed winter wheat. The number of acres planted should also be given.

When this list is complete in the county it will be sent to the College of Agriculture. Then later a representative of the Extension Department in company with Mr. Belting will view the grain in the fields and decide which will produce the best seed.

It is said that Missouri has the best winter wheat for seed of any state in the union this year.

Bert Cozad, who was injured in the automobile accident last week still continues to improve.

INCIDENTAL EXPENSE AT NORMAL
IS RAISED FROM \$7.50 TO \$9.

BOARD MAKES CHANGE

Theodore Robinson Appointed Treasurer of Board of Regents—Leave of
Absence to L. W. Greathouse.

The incidental fee at the State Normal school at Maryville has been increased from \$7.50 a quarter to \$9. This was one of the adjustments made by the Board of Regents of the Normal school yesterday afternoon.

This makes three of the Normal schools of the state which have raised their incidental fee to \$9. Two others located at Kirksville and Warrensburg have increased the deposit to \$10. Increased expense in running the school is the reason for the increased fee.

The board appointed Theodore Robinson treasurer of the Board of Regents in place of John D. Richey who was unable to serve.

The certificates which were presented at the commencement exercises this month, but which had not been officially awarded were awarded by the board and the award of certificates was made for those who would complete the work at the end of the summer session. The appointment of the extra teachers for the summer session was approved.

L. W. Greathouse was granted a leave of absence for the fall and winter quarters on account of ill health. The reports of President Richardson and of Registrar W. A. Rickenbrode were made.

The general welfare of the school was discussed at length and a number of plans were made for the improvement of the grounds and courses.

LOOK OUT FOR PEDDLERS

County and City Officers Urge Citizens to Notify Them If Court
Plaster Sellers Appear.

County and city officers of towns in this section are making requests that persons who see peddlers selling court plaster and other small articles in this section notify them at once, so that the plaster can be examined to see whether they contain germs of contagious diseases. The word is being passed from town to town, in the hope that a group of four peddlers who visited towns near Kirksville can be apprehended and their fares examined.

So far as is known, the peddlers have not appeared here, but if they do, the public is urged to notify the officers.

STARTS RED CROSS CAMPAIGN
WITH \$39.50 TODAY.

SKIDMORE HAS \$529.50

Hopkins "Drive" for \$2,000 Will Start
Sunday Evening at Union
Service.

Parnell began its Red Cross campaign with a rush this morning under the direction of C. F. Sisson. \$39.50 was subscribed in a short time, Ed Jones leading the list with a \$100 check.

Skidmore reports \$529.50 in the treasury, and will begin a campaign of Monroe township beginning Monday and ending July 7. The Red Cross boosters will aim at \$1,200 or \$1,500, but Mr. W. G. Reynolds in charge of the work, said that the committees would take all that they could get. The following donations have been received at Skidmore:

\$100—W. R. Linville and sons.
\$50—Barrett Mercantile Co., Kellogg Seed Co.

\$25—A. C. Dodds, J. C. Spahr, Sam Goslee, H. W. Montgomery, A. O. Miller, M. A. Sewell, G. L. Manchester, Dr. J. E. Pierpoint, Mrs. J. E. Pierpoint.

\$10—G. L. Owen, Clyde Barrett, E. T. Duval, E. D. French, Everett Linville, H. B. McDowell.

\$5—M. P. Louks, W. G. Reynolds, Mrs. Nora Sewell, Mr. and Mrs. A. F. Howden, W. H. Hoblitzell, W. W. Grigsby, Harry Barrett.

\$2.50—Mrs. E. E. Hickman.
\$1—Mrs. Belle E. Wright, Lawrence Linville, aged 9.

Hopkins has set the goal in Hopkins township for \$2,000, but the campaign will not be started until Sunday night. At that time a mass meeting will be held at the Methodist church and an attempt will be made to raise a large amount by voluntary subscription. A union service will be held at the church on that evening.

Still Investigating Accident.

O. W. Withan of Greenfield, Ia., and Bert Griffey of Orient, Ia., remained in Maryville today investigating the auto accident of a week ago and to find out if any action could be taken against the county. They were in conference with several attorneys this morning and were told, so it is said, that no recourse can be had from the county.

NEW TAX COMMISSION WILL HAVE NO FINAL POWERS.

ATTY. GENERAL'S RULING

Public Service Corporations Will Not Be Valued As Separate and Distinct Class of Property.

Jefferson City, Mo., June 27.—Attorney General McAllister has issued a ruling that the new state tax commission has no final authority in fixing any assessed valuation.

The act creating the commission purports to confer upon it power to assess railroad, street railway, telephone, telegraph and bridge property on its own motion and without the approval of the State Board of Equalization.

The general supposition was that the commission would have final authority in fixing valuation on real estate and personal property and that the public service corporations constituted another class of property.

The attorney general holds that there can be but two classes of property — real estate and personal — and if the corporations are not classed as real estate they must be classed as personal property. It never has been contended that the legislature had authority to curtail the powers conferred upon the State Board of Equalization by the constitution in regard to equalizing and valuing real estate and personal property.

The legislature however apparently tried to confer upon the Tax Commission the power to value public service corporations as a separate and distinct class of property not subject to approval by the board.

Corporation property is all that the Tax Commission can now work upon for the present year's taxes as the board passed upon the land and personal property valuations of the various assessors before the Tax Commission act became a law. It is understood the commission is looking into the value of railroads will take the figures in possession of the Public Service Commission. Entire valuation placed on corporations in the state last year was \$200,968,387.

Special to The Democrat-Forum.

London, June 28.—The landing of the American troops in France was the overshadowing topic of interest in military circles today and received more attention from the English press than the battle for Lens.

Pershing Will Lead Them.

A French Port, June 28.—The American expeditionary force in France will be under Pershing and not under any British or French commander. This became definitely known today, following the arrival here from Paris of Pershing who came here with his staff to review the first contingent.

Soon to the Firing Line.

Washington, June 28.—No time will be lost in getting the troops now in France on the western firing line. There will be a short period of breaking in just back of the trenches and within earshot of the tremendous artillery bombardments. Then the flag carried by the regulars will be placed along side of those of Belgium, England and France.

A total of four contingents reached the American naval base in France yesterday, it became known at the war department today. Only meager dispatches from Pershing have reached Baker today. A great fleet of transports were used to convoy the regulars across. They were protected all the way by some of the mightiest ships in the American navy.

Charles E. Kane Writes That Steamer Sailed June 25 — Gives Some Experiences.

Charles E. Kane of Maryville sailed with the other twenty-four members of the American Field Ambulance service, University of Missouri unit, on the steamer, Rochembeau, Monday, June 25.

Information regarding the start, taken from a letter by Mr. Kane, historian for the unit, is printed in the University Daily Missourian of Columbia. An extract follows:

"We have been rushed off our feet trying to get equipment, passports and passage, and to see the sights," writes Kane. "Some of the fellows, owing to confusion in application, are just getting their passports this morning. Our boat, the Rochembeau, sails this afternoon. I will try to send all the news about us the censor will permit after we get on the other side."

On the way to New York, Mr. Kane writes, the men were kept busy raising and lowering windows in passing through the numerous tunnels in West Virginia. The en masse congratulating of a bride and groom resulted in the Missouri unit being treated to a box of cigars. The fact that they were entering upon the most dangerous period of their lives did not dampen the spirits of the men from Missouri."

Mr. and Mrs. Lester Hood, Mr. and Mrs. Jake Wiley and Dr. Heryford of Pickering are among the out-of-town people in Maryville today.

IN FAVOR OF BONDS.

Prominent East Side Farmer Is Anxious to Have Bridges and Culverts Improved.

I. S. Dickerson, one of the leading farmers residing east of Hopkins, called Monday to say that he is very much in favor of bonding the county in whatever sum that is necessary to build new bridges and culverts and to repair those put out of commission by the recent floods—says if the bonds are not voted that many needed bridges and culverts will not be forth coming in the next ten years, and that the county will be handicapped as well as placed in disrepute by such willful neglect.

He is a real road booster and is not afraid to loosen his purse strings whenever it is necessary.

Seven culverts are out of commission on roads where he owns land and he has offered to pay for the sand to repair them or build new ones provided his neighbors will donate the hauling.

If we had more like him, it would not be long until Nodaway county would have the best roads and bridges of any county in the state, not only being of practical help and a pleasure to all who might use them, but increasing the value of every acre of land from \$25 to \$100. Taxes voted to improve the highways is never wasted if properly spent and our present county court is composed of men who can be trusted to use it to the best advantage of all concerned. If the other townships are as enthusiastic as Hopkins township, we believe a bond issue can be voted even

if it does require a two-thirds majority—Hopkins Journal.

TELLS OF AUTO ACCIDENT

J. Ed Costello Says He Was Not Racing to Beat Train to the Crossing.

J. E. Costello, who was in an auto accident at Lentner, Mo., Tuesday morning when his car was struck by a train, returned to Maryville last night. Mr. Costello received a few scratches and bruises in the accident but otherwise was not injured.

Mr. Costello was unable to tell much about the accident except that the road he was traveling over was running parallel to the railroad track to a crossing where he turned. He said the front wheel of the auto probably got over one rail when the train struck the car, turning it over with Mr. Costello in it. His cousin, Miss Mary Mullin, was thrown about twenty feet from the car.

Mr. Costello said he was not racing with the train to beat it to the crossing and that he looked several times when nearing the crossing and didn't see any train.

The car Mr. Costello was driving belonged to, George McMurry, the local Buick dealer, while his new car was driven by his son, Byron Costello, who was some little distance behind his father.

Miss Helen Symons of Rockford, O., who has been visiting Miss Ola Zimmerman, will leave tomorrow for her home. Miss Zimmerman will accompany her as far as Kansas City, where she will remain for a week's visit with friends.

HOW U. S. WILL PICK MEN

Details of the Way the Selective Draft Will Work Are Now Available.

Special to The Democrat-Forum. Washington, D. C., June 26.—Further details of the plan by which the young men to compose the new national army will be selected impersonally from Washington were learned today.

Under the plan proposed by Gen. Crowder every card in every registration unit in the United States will be numbered from one up to the limit of registration in that unit.

Corresponding numbers will be placed in a box and drawn out by the military and naval committees of the house and senate until as many numbers are drawn as are necessary to make up the 1,500,000 men who will be selected at the first drawing.

Thus, for example, if the committees should draw out of the box No. 182, every young man in the country whose registration card bears the number 182 would be regarded as selected for service. The provost marshal general has received from each registration unit word of how many registrations there were in that unit.

The numbers to be placed in the box will be numbered up to the highest number of registrations in the largest unit in the United States.

Thus, if No. 1 should be drawn out there will be one man drawn from every unit, but if a high number, such as 700 should be drawn no man would be selected from many units, for the reason that there were not that many registrations in many places.

If by this process any state should be called on to furnish more than its fair quota of troops, its numbers would be reduced without affecting the draft, because a large surplus of men will be drawn to provide for such emergencies.

It has been determined by the provost marshal general that this is the best method that can be devised to insure a fair drawing.

Irish Drama At Empire.

Full of quaintly humorous little side lights, "A Son of Erin," the screen drama of Irish life and American municipal activities is the attraction at the Empire Theatre tonight. A photoplay of much charm with a most picturesque setting, it has the essential essence of Ireland and the unadorned reality of American City politics. A delightful touch is where Katie O'Grady has a "grand little pig" to sell and her business dealings with the village butcher and afterwards her battle of wits with the dashing young landlord are deliciously humorous. Dustin Farnum in the starring part of "Dennis O'Hara" plays the role with just enough of humor to make a fascinating character in an interesting photoplay.

"The Five Tires"

Lower Tire Cost Than Ever—NOW

For, in the old days, tires not only cost motorists more per tire, but were also so far inferior to the present product, that the final cost—the cost per mile—was from 50 to 100 or more per cent. higher than you pay now.

United States Tires—the 'Royal Cord', the 'Nobby', the 'Chain', the 'Uaco' and the 'Plain',

—one for every need of price and use,
—produced by the largest rubber manufacturer in the world,
—produced by the most experienced tire manufacturer in the world,

—produced by a time-tried, exclusive, patented, vulcanizing process,

—produced of only the most carefully selected materials,
—have so far eclipsed every other make of tire that

—United States Tires are famous for their mileage-giving qualities—their low cost per mile.

The proof?—the consistent and persistent tremendous sales increases of United States Tires.

No More Fights on Train.

He says that no intoxicated

NEW PERFECTION OIL COOK STOVE

With the Long Blue Chimney

Bakes your cakes evenly. You turn the flame high and make an omelet in ten minutes or—very low and bake a roast for hours. The heat stays at just the temperature you like. You don't need to watch it.

Hot bread in the morning. That's the time you will like the New Perfection. The oven takes ten minutes to heat through. Hot rolls for breakfast or bake your bacon. Don't make an extra big fire as on a coal or wood range, and wait, and wait for it to heat.

Turn it right off when you are through. Saturday baking doesn't heat the kitchen. The long blue chimney concentrates the heat. Keeps you cool and the dinner boiling. It keeps an even temperature; it keeps clean and the kitchen clean. It keeps fuel cost down, too. Saves one-third. Easy to fill; easy to light; easy to rework.

Look for triangle trade-mark. Ask your dealer to demonstrate this stove.

A PATRIOTIC DAY

MANY COUNTY CHURCHES WILL OBSERVE IT SUNDAY.

THE METHODS SUGGESTED

Veterans of Civil and Spanish-American Wars Are Invited to Attend the Services.

Patriotic Sunday will be observed in many of the churches of the county next Sunday. On this day the flag will be in evidence and patriotic sermons will be preached.

The International Sunday School Association through the Missouri Sunday School News offers the following suggestions to all the Sunday Schools of Missouri, for the observance of Patriotic Sunday, July 1, 1917.

"Plan now to observe 'Patriotic Sunday,' July 1. We suggest that the local Sunday Schools make it the biggest celebration of the year.

All veterans of the Civil War, of the Spanish-American War and others who have served in the army or navy should be especially invited and be given seats on the platform. If the Sunday school has a Boy Scout organization, it might be well for them to appear in their uniforms and take some part in the program.

Some schools may wish to have a short parade preceding the Sunday School exercises.

The object of observing 'Patriotic Sunday' is to express gratitude to God for our nation;

To arouse feelings of loyalty and devotion to the nation;

To enlist all Sunday school members in some form of patriotic service;

To enroll as members of the Red Cross Society the officers, teachers, and as many others in the Sunday School as wish to join;

To make an offering toward the Red Cross Society or other war relief agency, or army Y. M. C. A. work.

TO AID AMBULANCE UNIT

Maryville Gun Club Will Give Money Made at Patriotic Shoot to the Red Cross Society.

The American Amateur Trapshooters association will give to the American Red Cross society a complete Ambulance Unit, consisting of twenty ambulances. To aid in this work, the Maryville Gun Club, a member of the A. A. T. A., will hold a Patriotic Shoot at the local club grounds on July Fourth, donating to this fund two cents for each target trapped for each contestant. Minimum targets to each shooter will be fifty.

hold two events — one especially for beginners (though any may enter) will begin at eight o'clock in the morning. In this event several interesting matches will be held between beginners. To qualify as a "beginner," the applicant must never have shot at more than 100 targets. In the afternoon at one o'clock individual and team matches will be called. These contests will be between the best local and visiting shooters.

None of these contests will be limited to members of the local club, anyone may enter and will be welcome. The cause is worthy of patriotic support and the events will be a sane and fitting celebration of our National Holiday.

The management requests us to say that trapshooting is one of the few outdoor sports that has never been commercialized. It is participated in and enjoyed by more than four hundred thousand American men and women. The gates to the club grounds are open and the public is cordially invited to come in. No admission charged. No collection taken.

PICKERING CIRCUIT M. E. CHURCH

The monthly report of the Sunday School at Pickering last Sunday showed a very nice increase in the average attendance for the month of June. In May the average was 188. In June, 194. We surely must make the average 200 for July. If just a few more will help a little it will be easy to do so.

The Epworth League will entertain the young people of the Christian church Friday evening from 7 o'clock until 10 o'clock in the grove on the Wallace farm 1/2 mile northwest of Pickering. Luncheon will be served and the entertainment will consist of various games and contests in a track and field meet.

The Myrtle Tree folks will hold a picnic July 4th in the grove at Bro.

Ernest Wray's. That a good time will be had by all who attend is understood by those who know the people of that community. They never do things half way. You are invited to be present.

The pastor will preach at Pickering next Sabbath morning and at Mozingo Valley at 8 p. m.

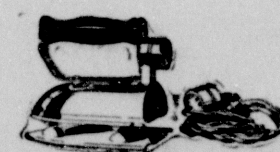

Our general board of Sunday Schools asks that we make next Sunday Red Cross Sunday, and we will act on that suggestion and "do our bit" for this great work next Sunday morning. Come, and help us make a liberal offering. The Methodist Sunday Schools are planning to give \$100,000 as their contribution to

this work. We must do our share. C. S. DAYHOFF, Pastor.

The Board of Directors of the Maryville Commercial Club decided last night to inaugurate a membership campaign. The board will pet to work and will secure at least twenty-five new members for the club.

GARDNER'S PROCLAMATION

Governor Asks Citizens of Missouri to Make Fourth of July a Day of Re-Dedication.

Governor Gardner has issued a proclamation to the people of Missouri asking that they make the coming Fourth of July one of individual and collective re-dedication to the interests of the United States. His proclamation follows.

ADD PROC

PROCLAMATION.

State of Missouri, Executive Department.

Whereas, we are nearing the celebration of the nation's birth. I take occasion to suggest to the people of this state that they make the coming anniversary of the Declaration of Independence an occasion of individual and collective re-dedication. At no time since the founders of the nation signed the Declaration has there been more need for the reassertion that nations derive all their just powers from the consent of the governed. This consecration should, on the nation's birthday, the Fourth of July, be given the fullest, freest and most emphatic expression by the people gathered in their churches, their public buildings and in open spaces.

It is desired that something helpful and practical shall grow out of these meetings, therefore, it has been suggested that the period from July one to July seven, both inclusive, be designated as "Navy Week" in Missouri. The Navy needs men and needs them now. It is already in action, but the force is inadequate. Many ships are undermanned and those in course of construction must have fighting crews. It is the open door to a career for any young man. It gives its members wide and varied experiences of the world and provides education and training in ways most useful in after life.

Therefore, I proclaim the week beginning July 1st as "Navy Week." I call upon the people to remember the Navy in all their public gatherings during this time, and especially urge upon all those in authority in the different subdivisions of the state, and upon all those who may address the people during this time, to urge upon our young men the duty of enlisting

J. N. Bryan, retired farmer, 222 Eleventh street, Maryville, says: "At one time I was having trouble from my back and kidneys. I had an intense soreness just through the small of my back which gave me great pain when I tried to bend over or straighten up quickly. My kidneys acted so frequently that it weakened me. I saw Doan's Kidney Pills advertised and bought some from Love & Gaugh's drug store. Right from the first I found relief and as I continued using them I was entirely relieved of that trouble. It has been quite awhile now since I have needed to use Doan's Kidney Pills so I know the benefit is lasting."

in the Navy. Let this year's celebration of the Fourth of July be chiefly a concentration and convergence of effort for naval enlistment. That will give an additional sanctity to the day already hallowed by the memories, sad and sweet, of almost a century and a half.

In testimony whereof, I have hereto set my hand and caused to be affixed the Great Seal of the State of Missouri.

Done at the City of Jefferson City this 23rd day of June, A. D. Nineteen Hundred and Seventeen.

Patriotism Through Poultry.

The man behind the gun Will do his part and do it right; But the man alone behind the gun Can never win the fight.

Behind the man behind the gun Men are fighting just as bravely, Producing all the food they can For the army and the navy.

The manufactured products are No less important. Then We hail the men in overalls Who are making useful things for men.

The service of the railroad man We greet with loud applause, For carrying products to the front Is a very worthy cause.

The high and the low, the rich and poor, Can each do great deeds, Whether fighting on the battle front, Or in the garden pulling weeds.

"Feed or fight," is our motto, "Produce more and waste less," our guide; "Patriotism through production," our slogan, "Human Liberty," our aim and pride.

The poultry business reaches all, Whether producer or consumer; Then each and every one of us Can help the cause along this summer.

Increasing the poultry production Many million dollars, and yet To save all that is produced, Is the goal that we have set.

Then let us work together In every line of action, For in doing so we are patriotic And the result gives satisfaction.

And when the war is over And human freedom has been won, We will all be happy then O'er the bit that we have done. (Issued by Missouri State Poultry Experiment Station, Mt. Grove, Mo.)

MAKES RED CROSS APPEAL.

Special to The Democrat-Forum.

St. Louis, June 28.—Missouri stands ready for the drafting of the "flower of her youth," to carry the American flag into the trenches of Europe.

San Francisco, July 28.—The eloquent Edwin Markham, author of the world famous poem, "The Man With the Hoe," has lent his voice to the campaign of the Red Cross War Council. Following is his appeal:

"The grim logic of fate has at last forced us into the world war, a struggle that is strangling civilization. Hatred and horrible is war, yet our nation feels that there is something worse than war, and she is pledged to make the world again hospitable to freedom and friendship.

"To help end the slaughter and dishonor, we, as a people, must conserve and co-ordinate all our energies. The hour has many calls upon our generosity; but none of them is more urgent than the call to help that great agency of Love in Action — The Red Cross.

"Hitherto we have sown the seed of this charity with one hand, now we must sow the field with both hands."

An organization of the Polk township division of the American Red Cross society and plans for an extensive "drive" for funds were taken up at the meeting of the Red Cross boosters held at the Commercial club rooms last night.

Dr. F. R. Anthony, temporary chairman, and Fred P. Robinson, temporary secretary of the Red Cross chapter for Nodaway county, were elected to the same offices in the Polk township organization and power was given them by the members present to appoint an executive committee and to make any plans they felt necessary to carry on the campaign for funds in the township.

Only two more days of voluntary subscription are left as the solicitation of funds will begin Monday. It is planned to make a "whirlwind drive" taking only two or three days to accomplish the whole canvass. The township will be canvassed according to school districts. Doctor Anthony announced that he had many volunteers, who were anxious to take up the work, and that any others wishing to assist in the campaign would be considered when the selection of campaigners was made.

Another misunderstanding concerning the organization was unearthed yesterday by Conrad Yehle. A woman came into the Alderman-Yehle store with two dollars for that organization and she said she had \$1 to give to Dr. Anthony's organization. Remember, that there is only one organization in the county and this is the Nodaway County chapter of the American Red Cross association. And that all of the money collected in any part of the county goes for the same purpose—the carrying on of the Red Cross work in Europe and America.

FOR THE CANNING LESSONS

Special Demonstrator From University of Missouri Will Be At the Normal Saturday.

Prof. C. H. Belting, of the Department of Agriculture at the State Normal school, received word today that a representative of the Extension Department of the University of Missouri would be at the State Normal school at 2 o'clock Saturday afternoon in the Home Economics rooms for the purpose of giving Maryville women a few practical demonstrations on canning and preserving foods.

Fruits and vegetables will be provided for the demonstration, but those who wish to have some foods canned out at the Normal may do so.

An invitation to city and farm women to assist in the demonstrations is extended by Professor Belting and Miss Hettie Anthony, head of the Home Economics department of the Normal.

READY FOR DRAFT INCREASE THE FEE

LOCAL EXEMPTION BOARD GETS NOTICE OF APPOINTMENT.

HOLD A MEETING TODAY

Sheriff Dowden Elected Chairman and Fred Yeomans Clerk of Board—Begin Work Tomorrow.

Sheriff John Dowden, County Clerk Fred Yeomans and County Physician Frank C. Wallis received word this morning of their appointment on the Exemption board for this county. Printed instructions to the board, conforming to the selective draft law recently enacted by Congress, were inclosed with the notices of appointment. The instructions say the board is to pass on questions of exemption, and all questions of claims for including or discharging individuals or classes of individuals from the selective draft.

The board met this morning and organized by electing Sheriff Dowden as chairman and Mr. Yeomans as clerk. Each member subscribed to the oath that he will support the constitution of the United States "against all enemies, foreign and domestic."

The board will meet again tomorrow and will proceed to examine and classify the registration cards, exempt such registered persons as are entitled to exemption, and within four days after organization, report to the adjutant-general at Jefferson City.

The board notified Governor Gardner by wire of their organization this morning.

So far as instructions thus far received indicate, the board will be allowed wide latitude in the matter of designating who shall be entitled to exemptions. No specific instructions on this point have been received, though they may come after the organization of the board.

A board in each federal district will be selected and they shall review on appeal and either affirm, modify or reverse any decision of any local board.

There will be few legitimate excuses for exemption according to unofficial advice from Washington. The main grounds on which registered men will be exempted from the draft follow:

1. Physical incapacity. Cripples, if drafted, will have to appear before a medical examiner before excused. In the first 625,000 conscripts these ailments will disqualify: heart disease, flat feet, eye disease or derangements that cannot be cured by glasses, tuberculosis and any other chest disease, cancer, serious kidney or liver troubles, varicose veins, infectious blood diseases.

2. Employment in vital war industries, including ship building, munitions making, navy yards, oil fields, coal mines, or in factories where army supplies are made.

3. Persons of religious beliefs opposed to the war who have been a member of the faith in question before March 15, 1917.

4. Men, the sole support of families.

These take in virtually every ground for exemption.

WOULD LIST SEED WHEAT

Extension Department Representative and Prof. C. H. Belting Will Inspect Fields of Winter Wheat.

An effort to file information concerning all of the seed wheat of the state is being made by the University of Missouri Extension department. Prof. C. H. Belting of the Department of Agriculture of the State Normal, wishes to urge the secretaries of all of the Nodaway county farm clubs to send in to him at once the lists of all of the farmers in their vicinity who have the best seed winter wheat. The number of acres planted should also be given.

When this list is complete in the county it will be sent to the College of Agriculture. Then later a representative of the Extension Department in company with Mr. Belting will view the grain in the fields and decide which will produce the best seed.

It is said that Missouri has the best winter wheat for seed of any state in the union this year.

INCIDENTAL EXPENSE AT NORMAL IS RAISED FROM \$7.50 TO \$9.

BOARD MAKES CHANGE

Theodore Robinson Appointed Treasurer of Board of Regents—Leave of Absence to L. W. Greathouse.

The incidental fee at the State Normal school at Maryville has been increased from \$7.50 a quarter to \$9. This was one of the adjustments made by the Board of Regents of the Normal school yesterday afternoon.

This makes three of the Normal schools of the state which have raised their incidental fee to \$9. Two others located at Kirksville and Warrensburg have increased the deposit to \$10. Increased expense in running the school is the reason for the increased fee.

The board appointed Theodore Robinson treasurer of the Board of Regents in place of John D. Richey who was unable to serve.

The certificates which were presented at the commencement exercises this month, but which had not been officially awarded were awarded by the board and the award of certificates was made for those who would complete the work at the end of the summer session. The appointment of the extra teachers for the summer session was approved.

L. W. Greathouse was granted a leave of absence for the fall and winter quarters on account of ill health. The reports of President Richardson and of Registrar W. A. Rickenbrode were made.

The general welfare of the school was discussed at length and a number of plans were made for the improvement of the grounds and courses.

LOOK OUT FOR PEDDLERS

County and City Officers Urge Citizens to Notify Them If Court Plaster Sellers Appear.

County and city officers of towns in this section are making requests that persons who see peddlers selling court plaster and other small articles in this section notify them at once, so that the plaster can be examined to see whether they contain germs of contagious diseases. The word is being passed from town to town, in the hope that a group of four peddlers who visited towns near Kirksville can be apprehended and their fares examined.

So far as is known, the peddlers have not appeared here, but if they do, the public is urged to notify the officers.

4 CONTINGENTS ARRIVE

Great Fleet of Transports Convoys Regulars Across — Pershing Will Command Them.

Special to The Democrat-Forum.

London, June 28.—The landing of the American troops in France was the overshadowing topic of interest in military circles today and received more attention from the English press than the battle for Lens.

Pershing Will Lead Them.

A French Port, June 28.—The American expeditionary force in France will be under Pershing and not under any British or French commander. This became definitely known today, following the arrival here from Paris of Pershing who came here with his staff to review the first contingent.

Soon to the Firing Line.

Washington, June 28.—No time will be lost in getting the troops now in France on the western firing line. There will be a short period of breaking in just back of the trenches and within earshot of the tremendous artillery bombardments. Then the flag carried by the regulars will be placed along side of those of Belgium, England and France.

A total of four contingents reached the American naval base in France yesterday, it became known at the war department today. Only meager dispatches from Pershing have reached Baker today. A great fleet of transports were used to convoy the regulars across. They were protected all the way by some of the mightiest ships in the American navy.

London, June 28.—Pushing their way forward over shell craters and torn roads, the Canadian patrols advanced to the very outskirts of the important city of Lens today.

Charles E. Kane Writes That Steamer Sailed June 25 — Gives Some Experiences.

Charles E. Kane of Maryville sailed with the other twenty-four members of the American Field Ambulance service, University of Missouri unit, on the steamer, Rochambeau, Monday, June 25.

Information regarding the start, taken from a letter by Mr. Kane, historian for the unit, is printed in the University Daily Missourian of Columbia. An extract follows:

"We have been rushed off our feet trying to get equipment, passports and passage, and to see the sights," writes Kane. "Some of the fellows, owing to confusion in application, are just getting their passports this morning. Our boat, the Rochambeau, sails this afternoon. I will try to send all the news about us the censor will permit after we get on the other side."

On the way to New York, Mr. Kane writes, the men were kept busy raising and lowering windows in passing through the numerous tunnels in West Virginia. The en masse congratulating of a bride and groom resulted in the Missouri unit being treated to a box of cigars. The fact that they were entering upon the most dangerous period of their lives did not dampen the spirits of the men from Missouri."

Mr. and Mrs. Lester Hood, Mr. and Mrs. Jake Wiley and Dr. Heryford of Pickering are among the out-of-town people in Maryville today.

IN FAVOR OF BONDS.

Prominent East Side Farmer Is Anxious to Have Bridges and Culverts Improved.

I. S. Dickerson, one of the leading farmers residing east of Hopkins, called Monday to say that he is very much in favor of bonding the county in whatever sum that is necessary to build new bridges and culverts and to repair those put out of commission by the recent floods—says if the bonds are not voted that many needed bridges and culverts will not be forth coming in the next ten years, and that the county will be handicapped as well as placed in disrepute by such willful neglect.

He is a real road booster and is not afraid to loosen his purse strings whenever it is necessary.

Seven culverts are out of commission on roads where he owns land and he has offered to pay for the sand to repair them or build new ones provided his neighbors will donate the hauling.

If we had more like him, it would not be long until Nodaway county would have the best roads and bridges of any county in the state, not only being of practical help and a pleasure to all who might use them, but increasing the value of every acre of land from \$25 to \$100. Taxes voted to improve the highways is never wasted if properly spent and our present county court is composed of men who can be trusted to use it to the best advantage of all concerned. If the other townships are as enthusiastic as Hopkins township, we believe a bond issue can be voted even

if it does require a two-thirds majority—Hopkins Journal.

TELLS OF AUTO ACCIDENT

J. Ed Costello Says He Was Not Racing to Beat Train to the Crossing.

J. E. Costello, who was in an auto accident at Lentner, Mo., Tuesday morning when his car was struck by a train, returned to Maryville last night. Mr. Costello received a few scratches and bruises in the accident but otherwise was not injured.

Mr. Costello was unable to tell much about the accident except that the road he was traveling over was running parallel to the railroad track to a crossing where he turned. He said the front wheel of the auto probably got over one rail when the train struck the car, turning it over with Mr. Costello in it. His cousin, Miss Mary Mullin, was thrown about twenty feet from the car.

Mr. Costello said he was not racing with the train to beat it to the crossing and that he looked several times when nearing the crossing and didn't see any train.

The car Mr. Costello was driving belonged to, George McMurtry, the local Buick dealer, while his new car was driven by his son, Byron Costello, who was some little distance behind his father.

Miss Helen Symons of Rockford, O., who has been visiting Miss Ola Zimmerman, will leave tomorrow for her home. Miss Zimmerman will accompany her as far as Kansas City, where she will remain for a week's visit with friends.

HOW U. S. WILL PICK MEN

Details of the Way the Selective Draft Will Work Are Now Available.

Special to The Democrat-Forum, Washington, D. C., June 26.—Further details of the plan by which the young men to compose the new national army will be selected impersonally from Washington were learned today.

Under the plan proposed by Gen. Crowder every card in every registration unit in the United States will be numbered from one up to the limit of registration in that unit.

Corresponding numbers will be placed in a box and drawn out by the military and naval committees of the house and senate until as many numbers are drawn as are necessary to make up the 1,500,000 men who will be selected at the first drawing.

Thus, for example, if the committees should draw out of the box No. 182, every young man in the country whose registration card bears the number 182 would be regarded as selected for service. The provost marshal general has received from each registration unit word of how many registrations there were in that unit.

The numbers to be placed in the box will be numbered up to the highest number of registrations in the largest unit in the United States.

Thus, if No. 1 should be drawn out there will be one man drawn from every unit, but if a high number, such as 700 should be drawn no man would be selected from many units, for the reason that there were not that many registrations in many places.

If by this process any state should be called on to furnish more than its fair quota of troops, its numbers would be reduced without affecting the draft, because a large surplus of men will be drawn to provide for such emergencies.

It has been determined by the provost marshal general that this is the best method that can be devised to insure a fair drawing.

"The Five Tires"

Lower Tire Cost Than Ever—NOW

For, in the old days, tires not only cost motorists more per tire, but were also so far inferior to the present product, that the final cost—the cost per mile—was from 50 to 100 or more per cent. higher than you pay now.

United States Tires—the 'Royal Cord', the 'Nobby', the 'Chain', the 'Usco' and the 'Plain',

- one for every need of price and use,
- produced by the largest rubber manufacturer in the world,
- produced by the most experienced tire manufacturer in the world,
- produced by a time-tried, exclusive, patented, vulcanizing process,
- produced of only the most carefully selected materials,
- have so far eclipsed every other make of tire that
- United States Tires are famous for their mileage-giving qualities—their low cost per mile.

The proof?—the consistent and persistent tremendous sales increases of United States Tires.

NEW PERFECTION OIL COOK STOVE

With the Long Blue Chimney

Bakes your cakes evenly. You turn the flame high and make an omelet in ten minutes or—very low and bake a roast for hours. The heat stays at just the temperature you like. You don't need to watch it.

Hot bread in the morning. That's the time you will like the New Perfection. The oven takes ten minutes to heat through. Hot rolls for breakfast or bake your bacon. Don't make an extra big fire as on a coal or wood range, and wait, and wait for it to heat.

Turn it right off when you are through. Saturday baking doesn't heat the kitchen. The long blue chimney concentrates the heat. Keeps you cool and the dinner boiling. It keeps an even temperature; it keeps clean and the kitchen clean. It keeps fuel cost down, too. Saves one-third. Easy to fill; easy to light; easy to rewick.

Look for triangle trade-mark. Ask your dealer to demonstrate this stove.

A PATRIOTIC DAY

MANY COUNTY CHURCHES WILL OBSERVE IT SUNDAY.

THE METHODS SUGGESTED

Veterans of Civil and Spanish-American Wars Are Invited to Attend the Services.

Patriotic Sunday will be observed in many of the churches of the county next Sunday. On this day the flag will be in evidence and patriotic sermons will be preached.

The International Sunday School Association through the Missouri Sunday School News offers the following suggestions to all the Sunday Schools of Missouri, for the observance of Patriotic Sunday, July 1, 1917. "Plan now to observe 'Patriotic Sunday,' July 1. We suggest that the local Sunday Schools make it the biggest celebration of the year.

All veterans of the Civil War, of the Spanish-American War and others who have served in the army or navy should be especially invited and be given seats on the platform. If the Sunday school has a Boy Scout organization, it might be well for them to appear in their uniforms and take some part in the program.

Some schools may wish to have a short parade preceding the Sunday School exercises.

The object of observing "Patriotic Sunday" is to express gratitude to God for our nation;

To arouse feelings of loyalty and devotion to the nation;

To enlist all Sunday school members in some form of patriotic service;

To enroll as members of the Red Cross Society the officers, teachers, and as many others in the Sunday School as wish to join;

To make an offering toward the Red Cross Society or other war relief agency, or army Y. M. C. A. work.

TO AID AMBULANCE UNIT

Maryville Gun Club Will Give Money Made at Patriotic Shoot to the Red Cross Society.

The American Amateur Trapshooters association will give to the American Red Cross society a complete Ambulance Unit, consisting of twenty ambulances. To aid in this work, the Maryville Gun Club, a member of the A. A. T. A., will hold a Patriotic Shoot at the local club grounds on July Fourth, donating to this fund two cents for each target trapped for each contestant. Minimum targets to each shooter will be fifty.

hold two events — one especially for beginners (though any may enter) will begin at eight o'clock in the morning. In this event several interesting matches will be held between beginners. To qualify as a "beginner," the applicant must never have shot at more than 100 targets. In the afternoon at one o'clock individual and team matches will be called. These contests will be between the best local and visiting shooters.

None of these contests will be limited to members of the local club, anyone may enter and will be welcome. The cause is worthy of patriotic support and the events will be a sane and fitting celebration of our National Holiday.

The management requests us to say that trapshooting is one of the few outdoor sports that has never been commercialized. It is participated in and enjoyed by more than four hundred thousand American men and women. The gates to the club grounds are open and the public is cordially invited to come in. No admission charged. No collection taken.

PICKERING CIRCUIT M. E. CHURCH

The monthly report of the Sunday School at Pickering last Sunday showed a very nice increase in the average attendance for the month of June. In May the average was 188. In June, 194. We surely must make the average 200 for July. If just a few more will help a little it will be easy to do so.

The Epworth League will entertain the young people of the Christian church Friday evening from 7 o'clock until 10 o'clock in the grove on the Wallace farm 1/2 mile northwest of Pickering. Luncheon will be served and the entertainment will consist of various games and contests in a track and field meet.

The Myrtle Tree folks will hold a picnic July 4th in the grove at Bro.

Ernest Wray's. That a good time will be had by all who attend is understood by those who know the people of that community. They never do things half way. You are invited to be present.

The pastor will preach at Pickering next Sabbath morning and at Mozingo Valley at 8 p. m.

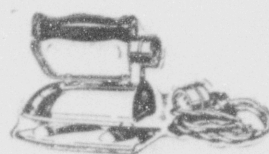

Our general board of Sunday Schools asks that we make next Sunday Red Cross Sunday, and we will act on that suggestion and "do our bit" for this great work next Sunday morning. Come, and help us make a liberal offering. The Methodist Sunday Schools are planning to give \$100,000 as their contribution to

this work. We must do our share. C. S. DAYHOFF, Pastor.

The Board of Directors of the Maryville Commercial Club decided last night to inaugurate a membership campaign. The board will pet to work and will secure at least twenty-five new members for the club.

GARDNER'S PROCLAMATION

Governor Asks Citizens of Missouri to Make Fourth of July A Day of Re-Dedication.
Governor Gardner has issued a proclamation to the people of Missouri asking that they make the coming Fourth of July one of individual and collective re-dedication to the interests of the United States. His proclamation follows.

ADD PROC

PROCLAMATION.

State of Missouri, Executive Department.

Whereas, we are nearing the celebration of the nation's birth, I take occasion to suggest to the people of this state that they make the coming anniversary of the Declaration of Independence an occasion of individual and collective re-dedication. At no time since the founders of the nation signed the Declaration has there been more need for the reassertion that nations derive all their just powers from the consent of the governed. This consecration should, on the nation's birthday, the Fourth of July, be given the fullest, freest and most emphatic expression by the people gathered in their churches, their public buildings and in open spaces.

It is desired that something helpful and practical shall grow out of these meetings, therefore, it has been suggested that the period from July one to July seven, both inclusive, be designated as "Navy Week" in Missouri. The Navy needs men and needs them now. It is already in action, but the force is inadequate. Many ships are undermanned and those in course of construction must have fighting crews. It is the open door to a career for any young man. It gives its members wide and varied experiences of the world and provides education and training in ways most useful in after life.

Therefore, I proclaim the week beginning July 1st as "Navy Week." I call upon the people to remember the Navy in all their public gatherings during this time, and especially urge upon all those in authority in the different subdivisions of the state, and upon all those who may address the people during this time, to urge upon our young men the duty of enlisting

A MARYVILLE MAN'S EXPERIENCE

Can You Doubt the Evidence of This Maryville Citizen?

You can verify Maryville indorsement.

Read this:
J. N. Bryan, retired farmer, 222 Eleventh street, Maryville, says: "At one time I was having trouble from my back and kidneys. I had an intense soreness just through the small of my back which gave me great pain when I tried to bend over or straighten up quickly. My kidneys acted so frequently that it weakened me. I saw Doan's Kidney Pills advertised and bought some from Love & Gaugh's drug store. Right from the first I found relief and as I continued using them I was entirely relieved of that trouble. It has been quite awhile now since I have needed to use Doan's Kidney Pills so I know the benefit is lasting."

In the Navy. Let this year's celebration of the Fourth of July be chiefly a concentration and convergence of effort for naval enlistment. That will give an additional sanctity to the day already hallowed by the memories, sad and sweet, of almost a century and a half.

In testimony whereof, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Missouri.

Done at the City of Jefferson City this 23rd day of June, A. D., Nineteen Hundred and Seventeen.

By the Governor.

Frederick D. Gardner.

John L. Sullivan, Sec. of State.

Patriotism Through Poultry.

The man behind the gun Will do his part and do it right; But the man alone behind the gun Can never win the fight.

Behind the man behind the gun Men are fighting just as bravely, Producing all the food they can For the army and the navy.

The manufactured products are No less important. Then We hail the men in overalls Who are making useful things for men.

The service of the railroad man We greet with loud applause, For carrying products to the front Is a very worthy cause.

The high and the low, the rich and poor, Can each do great deeds, Whether fighting on the battle front, Or in the garden pulling weeds.

"Feed or fight," is our motto, "Produce more and waste less," our guide; "Patriotism through production," our slogan, "Human liberty," our aim and pride.

The poultry business reaches all, Whether producer or consumer; Then each and every one of us Can help the cause along this summer.

Increasing the poultry production Many million dollars, and yet To save all that is produced, Is the goal that we have set.

Then let us work together In every line of action, For in doing so we are patriotic And the result gives satisfaction.

And when the war is over And human freedom has been won, We will all be happy then O'er the bit that we have done.

(Issued by Missouri State Poultry Experiment Station, Mt. Grove, Mo.)

MAKES RED CROSS APPEAL.

Special to The Democrat-Forum.
St. Louis, June 28.—Missouri stands ready for the drafting of the "flower of her youth," to carry the American flag into the trenches of Europe.

San Francisco, July 28.—The eloquent Edwin Markham, author of the world famous poem, "The Man With the Hoe," has lent his voice to the campaign of the Red Cross War Council. Following is his appeal:

"The grim logic of fate has at last forced us into the world war, a struggle that is strangling civilization. Hateful and horrible is war, yet our nation feels that there is something worse than war, and she is pledged to make the world again hospitable to freedom and friendship.

"To help end the slaughter and dishonor, we, as a people, must conserve and co-ordinate all our energies. "The hour has many calls upon our generosity; but none of them is more urgent than the call to help that great agency of Love in Action — The Red Cross.

"Hitherto we have sown the seed of this charity with one hand, now we must sow the field with both hands."

MERCHANTS WIFE ADVISES MARYVILLE WOMEN
"I had stomach trouble so bad I could eat nothing but toast, fruit and hot water. Everything else soured and formed gas. Dieting did no good. I was miserable until I tried buckthorn bark, glycerine, etc., as mixed in Adler-ka. ONE SPOONFUL benefited me INSTANTLY." Because Adler-ka empties BOTH large and small intestine it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. The Koch Pharmacy.

Mrs. Mary O'Donnell of near Arkoe, suffered a stroke of paralysis Saturday. Mrs. O'Donnell is in a very serious condition. She makes her home with Mr. and Mrs. Joe O'Donnell.
